

## **QHP Landscape Instructions and Notes**

### **Dental SHOP Market**

#### **1) Overview of QHP Landscape dental SHOP market file**

This document contains information on certified dental plans offered through an Exchange to employers in the Small Business Health Options Program (SHOP) market. These plans are also known as Stand-alone Dental Plans (SADPs). The document reports plans offered by county for states in the Federally-facilitated Exchanges including states performing plan management functions, and State Based Exchanges using the federal platform for eligibility and enrollment.

#### **2) Identifying plans based on geography and plan criteria**

To browse for a plan by specific data fields, click on the icon at the top of the column for a specific field of interest such as state, county, or metal level. For example, to select a specific county of interest, select the county name from the drop-down menu in the second column and click "OK" when done. The file will filter the data and show plan information only for the selected county. Multiple data fields may be selected for filtering and browsing at one time.
